## What is a ZOOM class?

### Zoom Definitions:

ANC will be offering ZOOM OPTIONAL and ZOOM INET classrooms for select classes this Summer and Fall.

ZOOM OPTIONAL is a classroom that is offered in a live classroom and the student has the option to attend the live classroom OR to attend the class remotely using the ZOOM teleconferencing online. Due to social distancing guidelines, ZOOM OPTIONAL live seating is limited and will be available on a first come-first served basis. Students coming to campus to participate in a ZOOM OPTIONAL class that is full will be offered seating in another space on campus.

ZOOM INET is a classroom where students may ONLY attend class via ZOOM teleconferencing online from a remote location. In ZOOM INET there is no live classroom.

Students taking ZOOM classes, who wish to participate remotely, must have a computer with a webcam and internet access or a smartphone capable of using videoconferencing technology to participate. The course instructor will send log-in information for enrolled students to access the ZOOM class at the specified time.
